#	Change	Roles with new function	Reference sheets updated	What it looks like
1.	**NEW FEATURE** **Student Placement Coordinator User Role added:** This Super Role encompasses supervisor, facilitator and rostering manager and allows for shifts attendance to be altered.	Student Placement Coordinator	**SPOT Fact Sheet 01 - User Roles Descriptions**	
2.	**NEW FEATURE** **New Button to edit default shift capacity:** This button makes it easier to identify where to click to change default shift capacity.	Director	**DRef-04a –** Managing your SHIFT Capacity Overview	
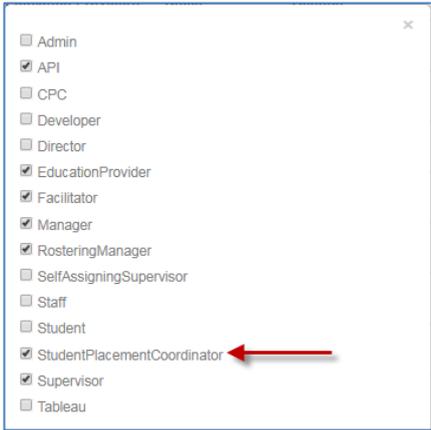

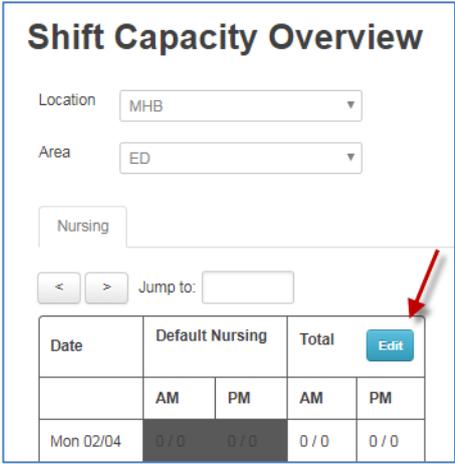

3.	**IMPROVEMENT** **Fixed** an issue that meant after a request had been submitted (before approved) that area allocation could exceed students to be placed requested.
4.	**IMPROVEMENT** **Fixed** an issue that meant you couldn't assign less areas then students requested in the event a student withdrew from the placement.
5.	**IMPROVEMENT** **Fixed** an issue that sometimes caused issues assigning multiple supervisors to a student.
6.	**IMPROVEMENT** **Fixed** an issue that stopped admin from being able to save announcements.

7.	**IMPROVEMENT** **Fixed** an issue that meant cancelled shifts in the facilitator dashboard appeared in GMT not the time zone of user.
8.	**IMPROVEMENT** **Fixed** an issue that stopped multiple student numbers to be pasted to a placement request to filter on specific students relevant to the request.
9.	**IMPROVEMENT** **Fixed** an issue that meant you couldn't add all students selected to a placement request.
10.	**IMPROVEMENT** **Added** placement request id to the table that appears when a director views pending requests.
11.	**IMPROVEMENT** **Added** clinical setting to the view all placement requests screen.
12.	**IMPROVEMENT** **Added** a running total per area when a director reviews a submitted placement request.
13.	**IMPROVEMENT** **Fixed** an issue that meant you couldn't see all information left in student notes without having to extend the notes box.
14.	**IMPROVEMENT** **Fixed** the placement request date calendar so the week begins on a Monday not Sunday.
15.	**IMPROVEMENT** **Added** a note in the system to alert users to use a comma if manually adding students into the system through the Add Student function.
