display.

4. If a student you wish to select does not have all of the information that the Placement Provider is requesting, this will display in the **Missing Fields** column. It will show which fields are required that are missing and an **[edit]** button. Clicking the [edit] button will open the **Edit Student** window.

First Name	Last Name	Student Number	Email	Year Level	Missing Fields	Add
Stu	Dent-one	20002	spot.student1@hotmail.co.uk		Hepatitis B, Medical Conditions, BLS Competency, Criminal History Check[edit]	View Add

5.

The **Edit Student** screen displays the:

- **Required student fields** that are mandatory for all students in the top section
- **Additional student fields required by some placement requests** that are displayed in the lower section.

You will need to enter either a:

- text response, (i.e. a *Medical Condition* that placement staff may need to be aware of for the student's safety)
- date response, (i.e. an immunisation date)

Once you've completed any edits click **Save** and close the window.

You can then click your browser's refresh button and add the student to your placement.

7. You can continue to add students until you've reached the approved number. If you attempt to add more students than approved on the placement request, the following error will display.

Error. This placement request is full.

8. If you attempt to add a student that is already assigned to placement request for the same period, the following error will display.

Error. This student already has a placement during that time.

9. Note – students will only appear to add under the Students Tab if they match the **Discipline** and **Program** of the placement request. If a student is not visible to add to the placement request they may have been added.

See *EPRRef-05 How to Create a Student Profile* for more information on creating a student profile with correct discipline and program.
