

SPOT Upgrade Notes – 08-04-2019

#	Change	Roles with new function	Reference sheets updated	What it looks like
1.	<p>NEW FEATURE Total Shift Capacity Rollover:</p> <p>When looking at an overview of an areas shift capacity you will have the ability to copy the selected week's capacity and apply to another timeframe.</p> <p>Note – this function will only copy Total Capacities at this stage.</p>	Director	DRef-04a – Managing your shift capacity overview	 <p>The screenshot shows the 'Shift Capacity Overview' interface. At the top, there are dropdowns for 'Location' (MHB) and 'Area' (ED). Below these are tabs for 'Medicine' and 'Nursing'. A 'Jump to:' field is present. The main area is a calendar grid with columns for 'Date', 'Diploma', and 'Shift Category' (AM, PM, Night). A red circle highlights a 'Copy' button in the 'Date' column. A dialog box titled 'Change Expected Total Capacities' is overlaid on the calendar, showing a grid for 'Shift Category' (AM, PM, Night) across days of the week (Mon-Sun) with numerical input fields. A red arrow points to the 'Copy' button in the screenshot.</p>
2.	<p>NEW FEATURE Ability to Copy a user's permissions to another user:</p> <p>A copy roles button has been added to the Administer Users page to easily copy roles and areas to another user.</p> <p>Note – This cannot be reversed.</p>	Admin	ARef-01 – Add, Disable and Edit Users	 <p>The screenshot shows a user management interface. It has a 'Status' column with a green person icon and an 'Actions' column. The 'Actions' column contains three buttons: 'Disable' (red), 'Edit' (grey), and 'Copy roles' (grey). A red arrow points to the 'Copy roles' button.</p>
3.	<p>IMPROVEMENT Fixed an issue that sometimes showed areas that weren't approved but were requested on placement area assignment page.</p>			
4.	<p>IMPROVEMENT Fixed an issue that prevented adding timed out students to a placement request. New process adds students to a placement request and activates student's profile.</p>			
5.	<p>IMPROVEMENT Fixed an issue that meant view all placement requests would time out if the search criteria was too large by making query script more efficient.</p>			
6.	<p>IMPROVEMENT Fixed an issue that meant view all placement requests would sometimes not sort by date when clicking sort.</p>
